

STURDY Satellite Litter Bin

The 50 litre Satellite hooded bin can be post or wall mounted and is ideal for high pedestrian traffic areas.

EMPTYING:

Opened with a standard triangular key and closed with a simple slam shut action.

ROBUST CONSTRUCTION:

The liner and lid are manufactured from impact absorbing, UV stabilised, high density polyethylene and is resistant to common chemicals as well as extreme temperatures.

EASE OF USE:

With a twist of the key, the hood flips upwards enabling the body to be rapidly removed. After emptying, the body is easily replaced on the mounting brackets and kept in place by the lid.

MAINTENANCE:

The unit has smooth internal and external surfaces for easy cleaning. The base of the bin is perforated to allow liquids to drain away.

HYGIENE:

The lid is designed to prevent birds and other animals from removing litter from the bin.

SECURITY:

The slightly rounded shape make the bin ideal for high traffic pedestrian areas and narrow footways.

PRODUCT DETAILS

CAPACITY: 50 litres (11 gallons)

HEIGHT: 755 mm (29.5")

WIDTH: 435 mm (17")

DEPTH: 345 mm (13.5")

PRODUCT CODE: 302 - A
