

# Sturdy Booster Tanks And Bunds

### Features and Benefits

The Sturdy Coffin Water Storage Tank is ideal for use in commercial and domestic water boosting systems.

A booster system might be required in areas where there is high demand for water in a particular building.

The Coffin Water Storage Tank is developed to fit in an attic, under the stairs, in a utility room garages or a basement.

The tank is manufactured from WRAS approved material which is suitable for the storage of potable water.

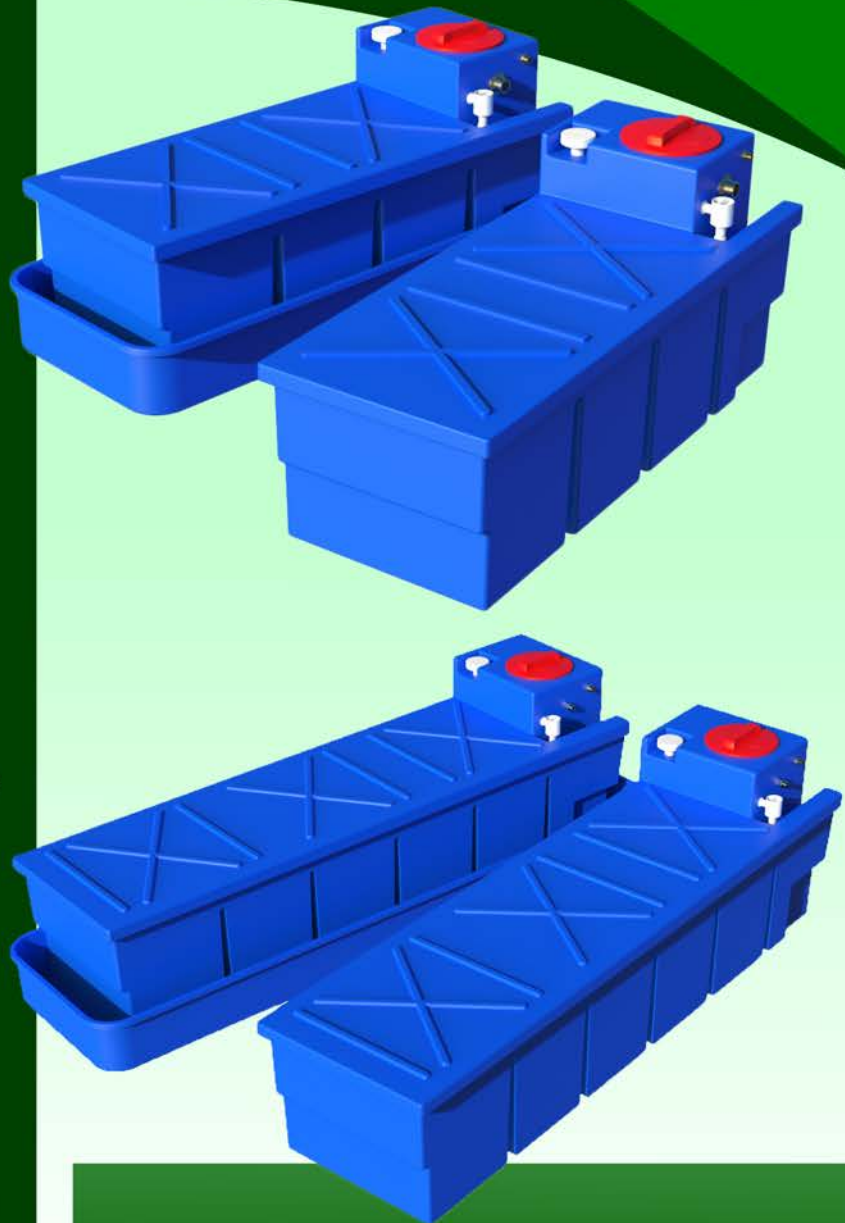

The 8" access lid is fitted as standard and is located toward the front of the tank to allow easier access.

The shape of the tank has been developed for a strong and long life.

Suitable for fitting of internal submersible pump.

#### Optional Extra

Supplied with bylaw 30 kit & ½ inch float valve & 1 inch brass connection.

Coffin tank 340lt product dimensions:
