

STURDY MAGNUM LAUNDRY TROLLEYS

FEATURES & BENEFITS

The Sturdy MAGNUM Laundry Trolley is unbeatable for price, functionality, durability and low noise. The body of the trolley is manufactured from UV stabilised medium density polyethylene material. The Compounded MDPE Material ensures that there is no colour give off.

The body is supported by a galvanised steel frame which incorporates a foot bar to allow the trolley be tilted when mounting kerbs. 4 non-marking low noise castors are fitted on the underside and they can consist of Swivel, Swivel/Brake or Fixed. The tyres are of elastomer construction and are also fitted with a thread guard.

The trolley comes with 4 ergonomically designed cut-out handles. The sloped roof on the trolley prevents rainwater and residual deposits from collecting on the top of the unit. Holes in the base of the trolley ensures for air movement within the trolley allowing it to “breathe” preventing internal condensation when fully loaded.

The trolley is fitted with a durable PVC Curtain which includes turn buttons for ease of access. The curtain also contains an A4 document pouch for any paperwork that might be required.

The Sturdy MAGNUM Laundry Trolley is suitable for use in hospitals, hotels and other industries where large quantities of linen are transported.
