

# STURDY MATERIAL HANDLING TROLLEYS

## STURDY Trucking Trolleys

Both Trucking Trolleys are manufactured from compounded polyethylene material which prevents any dye transferring from the plastic to the linen/material.

- The trolleys have 2 heavy duty braked/swivel castors and 2 heavy duty swivel castors.
- The castors support 750kg + Weight of Trolley + 20% for Safety.
- The castors are attached to a galvanised steel support frame underneath the trolley.
- The Standard Trucking Trolley is completely enclosed preventing any dirty or soiled linen from falling out.
- The Super Trucking Trolley as an open top to allow soiled linen to be loaded.
- There is a large opening at the front to allow access into the trolleys.
- The trolleys both have a PVC flap which is kept closed using turn buttons.
- The trolleys can be fitted with extra strapping to prevent linen from falling forward and out through the front opening.
- The trolleys can be forklifted and have galvanised steel channels to aid lifting.
- The handles on the trolleys are recessed and are similar in style to a shopping trolley.

### Standard Trucking Trolley

Width: 2260mm Length: 1245mm Height: 1700mm

Code: 372 - A

### Super Trucking Trolley

Width: 1870mm Length: 1980mm Height: 2185mm

Code: 475 - A

## STURDY Maxi Trolley

The STURDY Maxi Trolley, unbeatable for functionality, durability and low noise!

- The compounded Polyethylene plastic body of the trolley is UV stabilised. It will not fade, rust, require painting and there is no colour give off
- The galvanised steel frame offers a maximum strength base for the trolley
- Ribs running along the sides of the trolley add strength and prevent the trolley from warping when fully loaded.
- 4 heavy duty rubber tyre castors, 2 braked and 2 non-braked, ensure low noise and low resistance when transporting the trolley
- The tough plastic handles are set inside the extents of the trolley as a usability safety feature.
- Holes in the base of the unit ensures for air movement within the trolley allowing it to 'breathe' preventing internal condensation when fully loaded.

Width: 1750mm Length: 640mm Height: 1770mm

Code: 473 - A

## STURDY Returnable Shelved Trolley

This new addition to our range of Trolleys is ideal for all areas of the material handling industry.

- The trolley consists of three sets of 4mm aluminium shelving. Two of these shelves are removable and can be mounted on hinge pins which turn the shelves into lockable doors. The third shelf can be removed and placed on the floor of the trolley.
- The trolley is also fitted with a PVC cover. This helps to contain any goods stored within the trolley when the shelves are in use.
- The trolleys come with a triangular key as standard. This is attached to the side of the trolley to prevent it from being lost.
- Two swivel/braked and two swivel heavy duty non marking castors are attached to a galvanised steel frame on the underside of the trolley.
- Plastic handles are located on the four corners of the trolley.
- The trolleys are manufactured from compounded UV stabilised Polyethylene plastic. It will not fade, rust, require painting and there is no colour give off

Width: 890mm Length: 640mm Height: 1770mm

Code: 474 - A

# STURDY MATERIAL HANDLING TROLLEYS

## STURDY 330lt Tote Buggy

The Sturdy 330lt Tote Buggy is manufactured from a compounded medium density polyethylene UV stabilised material, which means there is no colour give off. The buggy is light weight and easy to manoeuvre.

- The Tote Buggy is suitable for use in hospitals, airports, hotels, building sites and other industries where quantities of materials are handled.

- These buggies can be easily stacked if required to help with storage.
- They can be fitted with non marking castors which will not smudge the floor of the premises.

- As optional extras the Tote Buggy can be fitted with a PVC cover, plastic handles, a unique bar code to allow for traceability and your company name or logo.

300lt - Width: 700mm Length: 1000mm Height: 960mm

Code: 148 - A

## STURDY Utility Trolleys

Flat Top

Apex Top

- Each trolley can be fitted, upon request, with a unique bar-code to allow for traceability
- Each trolley features signage panels that can be screen printed with your company logo
- The tough plastic handles are set inside the extents of the trolley as a usability safety feature.
- Holes in the base of the unit ensures for air movement within the trolley allowing it to 'breathe' preventing internal condensation when fully loaded
- Curtains are available in standard colours of Red, Green & Blue

Apex Top - Width: 890mm Length: 640mm Height: 1880mm

Code: 412 - A

Flat Top - Width: 890mm Length: 640mm Height: 1770mm

Code: 412 - A

## STURDY Collapsible Trolley

The Sturdy Collapsible Trolley is manufactured from 100% recyclable compounded Polyethylene and is UV stabilised. This means it will not rust or require painting and there is no colour give off. Products can be colour coded to your preference.

- The trolley does away with problems experienced with today's steel trolleys - excessive noise, dangerous protrusions and hygiene issues.
- Kiss off points placed along the sides of the trolley add strength and prevent the trolley from warping when fully loaded.
- 4 rubber tyre castors, 2 braked and 2 non-braked, combined with our patented SP0401 vibration absorbing material ensure low noise and low resistance when transporting the trolley
- The compounded polyethylene plastic body is designed to be easily cleaned with no areas difficult to reach.
- Pivoting castors, integrated handles and low profile design with a low centre of gravity insure ease of manoeuvrability in places where there is space restrictions.
- As an optional extra each trolley can be fitted with a unique bar code to allow for traceability. The trolley also incorporates signage panels that can be screen printed with your company logo as an optional extra. It can also be manufactured in your own company colours.

Width: 855mm Length: 905mm Height: 1715mm

Code: 451 - A

## STURDY Laundry Trolley

- The Sturdy Laundry Trolley is manufactured from a compounded medium density polyethylene UV stabilised which ensures that there is no colour give off.
- A galvanised steel support frame offers maximum strength to the base of the trolley. They are easily stacked if required.
- There is a pouch on the side of the unit for paperwork.
- The trolley has non marking castors which will not smudge the floor of the premises. Stainless steel bolts are used throughout.
- The Laundry Trolley is suitable for use in hospitals, hotels and other industries where large quantities of linen are transported.
- It is available in blue as standard.
- As an optional extra the Laundry Trolley can be fitted with a PVC cover. Each trolley can be fitted with a unique bar code to allow for traceability.
- Also your company name or logo can be printed on the front of the trolley to help promote your company.

Width: 1000mm Length: 1670mm Height: 860mm

Code: 342 - A
