Sturdy High Security Laundry Box SP

The Sturdy High Security Laundry Box is specifically designed for the storage of high end linen. The lightweight lid allows for ease of insertion into the body of the container. Two lockable clasps are located on the lid and when not in use prevent unauthorised access. Two larger rear wheels and two swivel castors in the front ensure that the product is easy to transport. The design of the unit allows it to be lifted vertically to pass through tight doorways and corridors.

STURDY PRODUCTS LTD

Custom Moulding

Still cannot find what you need!
Do you have a need for a custom trolley or container in large numbers?

With over 38 years experience in the Rotational Moulding Industry,
Sturdy Products Ltd. can provide your business
with a complete plastic moulding solution. We have the capability to take your design
idea from initial inception through to the final product launch all under one roof.
Whether it's a new product, a re-development of an old product or
if you are switching from metal to plastic, we can offer you our custom moulding service.

What Does Rotational Moulding Offer?

- Design flexibility as a wide variety of intricate shapes can be easily manufactured.
  The process produces goods that are relatively stress free.
- Economical tooling costs.
- A variety of colours and finishes are available.
- It is inexpensive for short production runs, prototype research and low volume production.
- Double wall mouldings can be produced if required.
- Its gives a one piece, seamless moulding.
- Metal inserts can be included as integral parts.
- It has excellent load bearing properties.
- The material can be corrosion resistant.

Our Services

We have a dynamic and dedicated in-house deign team who will work closely with you to achieve
the product you require. We have a fully equipped mould fabrication workshop and state of the
art rotational moulding machines which allow for a reasonable idea/product turnaround. This
also enables us to have full control over the quality of the product you receive.
With the aid of high quality 3D renderings we can provide you with initial concepts as to how
your product may look once finished. We can also further develop these ideas should this be
required and these can be presented to you in a variety of formats. Our design team can also
provide you with a full set of CAD product drawings once the final design has been completed.

Our skilled team of mould fabricators have the capability of producing a mould within in
relatively short period of time. This allows us to quickly produce the initial prototype for testing.

If you have an idea worth pursuing why not contact us for a free consultation and quotation?
